Objective

A skilled Full Stack Developer with 3 years of experience in building high-quality web applications. I specialize in frontend (React.js) and backend (Node.js, JavaScript), creating smooth user experiences and strong server functionality. I'm passionate about using technology to improve efficiency and excited to work on projects that make a real impact while growing my expertise.

Technical Skills

Languages: JavaScript, C++, Java (Core)
Frontend Technologies: Javascript, React.js, Redux
Backend Technologies: : Node.js, Express.js
Databases: MySQL, MongoDB
Other: Data Structures and Algorithms, Object-Oriented Programming

Education

G L Bajaj Institute of Technology and Management   June 2019
Bachelor of Technology in Computer Science and Engineering (CGPA: 7.33 / 10.00)   *Greater Noida, India*

Experience

Chetu   June 2023 – Present
Software Developer   *Remote*
- Developed and optimized a comprehensive Property Management SaaS platform using Node.js and React, improving leasing process efficiency and increasing user engagement by 25%.
- Integrated third-party APIs like Stripe and TazWorks for secure payment processing and background checks, reducing manual work by 40%.
- Led the development of a real-time PDF editor in React, improving admin productivity by 30% through enhanced document management features.
- Collaborated with cross-functional teams to deliver high-quality, scalable solutions, reducing deployment time by 20%.

Coding Ninjas   October 2021 – May 2021
TA Intern   *Remote*
- Provided debugging and problem-solving support to over 2,000 students, helping improve their understanding of Data Structures and Algorithms.
- Enhanced student engagement and project success by leading multiple coding sessions, resulting in a 15% increase in assignment completion rates.
- Contributed to course development by creating coding exercises and offering feedback to refine course content.

TCS iON   July 2019 – September 2021
Assistant System Engineer   *Remote*
- Developed and maintained core features of TCS iON's Digital Learning platform using Node.js and React, improving platform stability and performance by 20%.
- Automated user notification processes, reducing manual intervention by 35% and increasing response times for security alerts.
- Migrated legacy systems to modern UI frameworks, leading to a 25% increase in user satisfaction and a smoother user experience.

Projects

Property Management SaaS Platform | *Node.js, React.js, Stripe, TazWorks*
- Developed and optimized a comprehensive Property Management SaaS platform, improving leasing process efficiency and increasing user engagement by 25%.
- Integrated third-party APIs for secure payment processing and background checks, reducing manual work by 40%.
- Led the development of a real-time PDF editor, enhancing document management features and improving admin productivity by 30%.

Digital Learning Platform Enhancement | *Node.js, React.js*
- Developed and maintained core features of TCS iON's Digital Learning platform, improving platform stability and performance by 20%.
- Automated user notification processes, reducing manual intervention by 35% and increasing response times for security alerts.
- Migrated legacy systems to modern UI frameworks, leading to a 25% increase in user satisfaction and a smoother user experience.

Certifications

Career Bootcamp: Coding Ninjas | *June 2021 – October 2022*
- Specialized in Data Structures, Algorithms, Frontend, and Backend technologies.
- Completed projects using JavaScript, React.js, and Node.js.

Achievements

TCS Codevita 2018 | *Ranked 2185 out of 42,000*
- Ranked 2185 out of 42,000 participants in TCS Codevita 2018.

Coding Ninjas CareerCamp | *Top 50 out of 10,000 applicants*
- Selected among the top 50 out of 10,000 applicants for Coding Ninjas CareerCamp.

GeeksforGeeks | *250+ Problems Solved*
- Solved over 250 Data Structures and Algorithms problems on GeeksforGeeks.
